

Early Detection Means Early Intervention

Equinoxe LifeCare now offers **LifeCare Plus**. This solution enables detection, prediction and prevention to reduce risk and ensure the safety of our seniors.

LifeCare Plus – How It Works

Plug and play pods that gather care-related data around the clock:

DETECT

We gather data for early detection of issues that may require attention.

PREDICT

We identify out of the ordinary patterns of your loved one's activity.

PREVENT

Our continuous feed allows us to intervene sooner and help to reduce risk from unwanted events.

We will regularly share a **Care Report**, which includes data insights of care related issues and recommendations.

AT YOUR SIDE, DAY AND NIGHT

WHAT CAN BE DETECTED

LifeCare Plus identifies irregular activities, such as:

- Risk of medication error
- Early signs of infection such as UTIs
- Cognitive decline
- Difficulty performing a task
- Abusive interactions at home

In addition, we detect events such as:

- Suspected falls or other physical distress
- Calls for help

LifeCare Plus operates 24/7, we are at your side, day and night.

HOW WILL THIS HELP YOU?

LifeCare Plus offers a 24-hour safety net, helping to:

- Reduce hospitalization risk
- Identify symptoms of infection or decline
- Evaluate physical, cognitive and emotional needs
- Keep the family informed

LifeCare Plus helps prolong seniors ability to age in place.

Our team will be notified 24/7 to act upon these events.

FOCUSED, SECURE AND PRIVATE

Equinox LifeCare Plus is designed to allow clients to live in their own home as long as possible without being intrusive or cumbersome. There are no cameras, no buttons, nothing to wear and no batteries to change.

We take privacy seriously:

- Data gathering is only auditory
- Devices are triggered by out of the ordinary events
- Notifications are only sent to the Equinox LifeCare team
- Data privacy practices comply with PIPEDA, HIPAA and ISO27001

THE PEACE OF MIND YOU DESERVE
